## Approved UST Operator Trainers

The State of Nevada Division of Environmental Protection, Bureau of Corrective Actions, approves the training program list below for A/B/C operator certification. The Operator training certification will be verified at the time of inspection. The operator's certificate of certification must be available upon request at the time of inspection with names and date of the facilities Class A, B and C operators.

#### Operator/Trainer:

Proof of training or retraining—A paper or electronic record that, at a minimum includes name of trainee, date trained, and operator class. In addition, records from classroom or field training programs or comparable examination, must be signed by the trainer or examiner and include the printed name of the trainer or examiner, company name, address, and phone number. Records from computer –based training, at a minimum, must include the name of the training program and web address, if internet-based. Records of retraining must include those areas on which the class A or B operator was retrained. Records of training or retraining must be maintained as long as the Class A, Class B, and Class C operators are designed at the facility.

#### Facility:

Maintain a list of designated Class A, B, and C operators for each UST facility— Include operator names, operator class trained, date assumed duties, date completed initial training, and/or date of any retraining. These records must be maintained for all Class

A, B, and C operators at the facility or provided upon request of the implementing agency. The facility may use NDEP's [Designated Operator](#) form to meet this requirement.
